e British Periodicals.

REMIUMS

TO NEW SUBSCRIBERS,

CONSTABLE'S New York continues to publish the following leading British Periodicals, viz

1
LONDON QUARTERLY (Conservative)
2
EDINBURGH REVIEW (Whig)
3
NORTH BRITISH REVIEW (Free Church.)
4
WESTMINSTER REVIEW (Liberal)
5
BLACKWOOD'S EDINBURGH MAGAZINE (Tory)

Great and unprecedented—Religious, Political, Military—Stirring the nations of the Old Hemisphere to their centre. The publications an interest and value unequalled by any other periodicals. They occupy a middle position between the daily newspaper and the ponderous Quarterly Review. To those who wish to be well informed upon the great events of the times, these works shall have passed through the columns of the newspaper and the more permanent record is required, they will be found a thousand times more than the price of subscription. Every movement is closely watched. The letters from the Crimea and India, alone, are worth the price of subscription. Blackwood's Magazine from two to three times a year gives a more intelligible and connected view of the progress of the belligerents than can be found in any other publication. The Reviews represent the three great political parties in Great Britain—Whig, Tory and Radical—The Westminster is the leading organ of the Liberal Party, and the Edinburgh stands as high as ever here as the leading Tory Review. The character of the conductors of these periodicals is a sufficient guarantee that the professional man will find in them the most able exposition of the principles of his profession, and the merchant, the statesman, and the politician, will find in them a correct record of the current literature, the progress of science, and the state of the commercial and political world, such as can be found in no other publications in the world, and such as every intelligent man should have at his command.

The Municipal Election—A Singular "No-party" Movement.

The Journal, in a recent article upon the Municipality, has taken occasion, with a supercilious air, to attack the present city government, and while ostensibly deprecating a partizan character in that which is to come, betrays plainly, by that very attack, the intention to throw the government if possible into the hands of the mass democracy and its allies, by a pretended "no party" movement under control of certain "partizan" leaders of its own stamp.

In regard to the present city government, its greatest fault in the eyes of the Journal is, after all, that the gentlemen who compose its various branches are, for the most part, of a different political stripe from the coalition which the Journal favors. Therefore, its actions have of course been all wrong in the view of that immaculate sheet. But men of reasonable candor although having strong party predilections, will be willing to acknowledge that the City government has endeavored to do its duty faithfully and impartially. The Journal may say, perhaps, that we are prejudiced in favor of the government, but nevertheless, we claim to be sincere in asserting that we have never known a municipal government any where which seemed more strongly actuated by a conscientious desire to discharge its duties faithfully, and to carry out what appeared to be the will of the people. If mistakes were made as to the true character of some of the officers chosen by the Council, or appointed by the Executive branch, it is no more than all municipal governments are liable to, and from which we believe former City governments, even here, have not been altogether exempt. And we think the general interests of the City have been as well cared for, and that the public peace has been as little disturbed during the past year, as in any other. We may say in fact, that so far as we are informed, there has rarely been a year in which there were fewer outbreaks, or in which the laws, or fewer cases called for the protection of property. All this, however, goes for nothing with the Journal.

But in regard to the coming election. The Journal introduced the call for the "Citizen's Caucus" of Saturday evening, by declaring that there is no very strong partizan feeling among our citizens in relation to the municipal government—that "all that the citizens desire is to have capable and honest men in charge of our affairs"—and that "on the management of our affairs we have nothing to do with the government at Washington." From these expressions, the Journal would have it appear that the proposed new government should be one not political in character—declaring also that "it wants a city government such will not be so proscriptive as the present one has been."

Well, what did the Journal's friends do, in regard to the Saturday night's meeting? Was it a liberal & non-partizan, "broad-gauge" movement, in accordance with what the Journal would have had the people believe? If we are correctly informed, the very first preliminary act was for a committee of the Journal's political stripe to wait upon the gentleman whom they proposed for Mayor, and who was subsequently nominated, and make him *pledge himself*—to what? to be a capable and honest man as the Journal states the qualifications?—No, but simply and only *to subscribe to their political faith*, and so oppose the party of freedom which they are pleased to call the "Black Republicans." This was the only qualification required by the—(what shall we call the coalition?)—the *anti* Republicans. A beautiful display this of "anti partizanship," and of "anti-proscription!"

A side commentary upon their professed desire for a government which should have nothing to do with National politics. A very singular "no-party movement." And to carry it out consistently, they proceed to nominate for Mayor the gentleman of whom they had required the *party* pledge above named—and for Police Judge a gentleman against whom we have nothing to say personally, but who is well known to be an ardent politician on the same side, and when this famous "no-party" party make their ward nominations, there is no danger in predicting that they will be all of a similar political character, and that there will be quite as much proscription in the whole movement as has been shown at any time by the present city government of which the Journal complains.

Now we have only to say, that if the Republicans think at for the interest of the good cause which they have at heart, to secure a government which will be honest and capable, and at the same time determined to guard the ballot-boxes against illegal voting, and have the check lists fairly and equally made up,—they will not be willing to permit a "no-party" movement which in all of one side, to organize for them the government for the ensuing year. If they desire a fair, "honest and capable" government, they can obtain one by a full attendance at the polls.

[At a spirited meeting of several hundred Republicans, held spontaneously last evening it was determined to call a nominating caucus for Thursday evening, when we have no doubt that acceptable candidates will be selected, and such as will be triumphantly chosen by the people.]

The Post office at North Newport has been re-established, and Ira Shepherdson, Esq., appointed Postmaster.—*Democrat*

A Woman Murdered in Brewer.—A woman named Sarah Carey, the wife of an Irishman named John Carey, living in Brewer, about a mile from the Bridge, was found dead on Sunday morning, and it is said with marks of bruises upon her body, indicating violence. She was in the city Saturday evening, and apparently well. It is said that her husband states that he went to bed Saturday evening, and left his wife washing up the floor, and that he waked up in the night and found her on the floor, in a dying condition. He has been arrested.

An inquest was held yesterday by Coroner Hayford of this city, but had not been completed last evening.

P. S. Since writing the above, we learn that the woman was undoubtedly choked to death, and that she was also terribly burned and bruised on various parts of her body. There was a drunken time at the house on Saturday evening, when her husband and one or two other men were present; so that rum was the producing cause of this terrible crime, as it has been of so many others. There were no indications of alcohol in the stomach of the deceased!

The Examination of the Boys High School, (Mr. Dame's) on Prospect Street, takes place this (Tuesday,) forenoon. The award of prizes or declamations will be declared by the committee appointed for that purpose.

The Examination of the Girls High School, (Mr. Howard's) will take place on Wednesday forenoon.

The High School Examinations.—We understand that the School Committee have passed an order not to admit to the Examination of the Boys High School to-day, and the Girls High School to-morrow, scholars belonging to other schools, to the exclusion of parents and adults. This is a very good regulation, and we hope it will be enforced, for it is too frequently the case this adults are seated in those schools and kept away from the examinations to an impossibility of gaining admittance.

The Military Ball. If the condition of the travelling permits, we understand there will be numerous delegations from abroad, to attend the Military and Civic Ball, which comes off this evening at Norombega Hall, and the Assembly will probably be one of the largest of the kind which has been held in the State.

We are requested to state that tickets must be procured of the floor managers.

Municipal Election in Bath.—A despatch states that William Rice, the American candidate, was elected Mayor of Bath yesterday, (Monday) by 400 majority.

Mr Galligan, who was stabbed by Nally last week, was still alive last evening, but in a condition which was thought to be hopeless.

Levee at Oldtown.—We learn that the Ladies of the Universalist Parish in Oldtown, are to hold their annual Festival and Levee at Codman Hall, on Thursday evening March 6th. The table will be furnished with all the delicacies of the season which the market affords. Vocal and Instrumental Music, Tableaux, and that most amusing and popular comedy, "The Antiquarian Sewing Society of Tattleville," will add variety and interest to the entertainment. The public are respectfully invited. Tickets of admission 25 cents. Doors open at 6½ o'clock. Exhibition of Tableaux to commence at 7½.

Divorce Suit at Philadelphia.—*Court of Common Pleas*—General Term—Rufus W. Griswold against Charlotte A. Griswold.—Mr. G. in 1852, obtained a decree of divorce from Mrs G. on the ground of her having abandoned him. He then became married to another lady. Mrs G alleges that the charge of abandonment was untrue, that she was not aware of her husband obtaining a certificate of decree until she saw his marriage in a paper, and she entered an appeal in the Supreme Court, but when it was about to be argued, it was discovered that all the papers in the case had disappeared from the Prothonotary's office, and the appeal, consequently, could not proceed.

A rule to show cause why the decree should not be set aside was granted in 1854, and duly served upon Mr Griswold, and the case has recently been put upon trial as above.

It will be seen that the full number of votes was recorded on the final ballot for President—all candidate in the Know Nothing Convention, although a large number of delegates had previously seceded. The way it was done was thus: the absent votes were added to those of the members of each State delegation actually present, and recorded as being given in the same way. Thus the appearance of a full Convention was kept up.

Mr Fillmore received, on the test vote for the nomination, forty-five votes from the Slave-holding States, and but twenty-six from the Free! Of the thirty-five delegates from his own State, only eight voted for him! The entire pro-Slavery section, except Kentucky and two scattering votes, went for him. This and the secession of the Free-Soil members nominated him.

Great Sale.—We are informed by Messrs. Jewett & Co., that 5000 copies of "Ernest Linwood," Mrs. Hentz's last work, were sold by them in four days, and that the demand for the work is so great that they are unable to supply it, notwithstanding three of Adams' power presses are kept running day and night.

An Injurious Law.—The Argus states that there is a law in Mobile requiring ship masters to enter a sworn list of the names of the officers and crew of their vessels—as well as of the passengers—their sex, color, and condition. Whether free or slaves. The law has been a dead letter for some years, but for some reason or other has been revived again, and is subjecting the captains to a great deal of inconvenience, annoyance, and expense.

Frederick A. Noble, of Oxford, Me., at the prize declamation of the Sophomore Class, Kalb College, bore away the first prize.

The reason that eels are so musical is because they are all fiddle-strings inside.

From the Washington Union.

Extraordinary Diplomacy.—A despatch from Washington to the New York Herald says:

"A very extraordinary chapter in the diplomacy and existing complications upon the Central American question has appeared in the Herald of this evening. Mr Crampton addressed a hasty note to Mr Marcy, enclosing a letter from Lord Clarendon to Mr Crampton, dated so long ago as last autumn, in which Lord Clarendon recites a conversation between himself and Mr Buchanan on the subject of referring the Central American difficulty to a third power for arbitration. He requests Mr Crampton to communicate his letter to the American government.

Mr. Crampton's apology to Mr. Marcy for not doing so before, is that he overlooked the concluding paragraph concerning that request. He now sends the original letter without stopping to make a copy, and requests that it may be copied and returned to him. He seems all at once to have got on a great hurry about the business.

The letter of Lord Clarendon can hardly be called a downright offer to submit the matter to arbitration. It might more properly be characterized as an effort to sound the American Government on the subject. Mr Buchanan recently made a specific and emphatic demand upon Lord Clarendon as to what he meant by his declaration in Parliament, that he had recently received his offer to submit the Central American difficulties to the arbitration of a third power, he told Lord Clarendon that nothing was known of such an offer in London.

Lord Clarendon at first talked about his previous conversations on the subject with Mr Buchanan. These conversations had been of a suggestive, discursive and rather peculiar character, and did not embrace any proposition which Mr Buchanan had a right to consider definite and serious. After referring some time, however, to these previous talks, Lord Clarendon told Mr. Buchanan that he had written to Mr Crampton renewing the offer, that Mr. Crampton had communicated his letter to Mr Marcy, and that Mr Marcy had replied that the subject was in the hands of Mr Buchanan.

The President has been induced to withhold the letter dismissing Mr Crampton till the arrival of the steamer due, in the expectation that he will be recalled by his own government.—Should that not be the case, the letter will be immediately sent."

From Kansas.—We extract the following from the Herald of Freedom of the 16th ult.

"The Independence Despatch states that the militia of the border counties in Missouri are to rendezvous at Fort Scott, in that Territory, on the 26th of February. What business has the military force of Missouri in Kansas? and why do they concentrate their strength at Fort Scott, at that particular juncture? It is a fact that military organizations have been forming everywhere along the border of Missouri, consisting exclusively of mounted riflemen.

Davy Atchison, in his speech at Platte City a few days since, told his Ruffians to hold themselves in readiness against the 4th of March, that their services would then be demanded; that they would be called upon to march into the Territory. Is it probable their mission is a peaceable one? If so they have as much right here as any citizen. If they are coming for the purpose of destruction, and to drive out the Free State settlers, as they claim, and as their presses have confessed from week to week for more than a year, then they are filibusters, they partake of the character of the guerrilla party they are outlaws, and their destruction is the best demand of nature.

In the last Herald the Border Ruffians at Independence have offered a reward of $2000 for the body of General James H. Lane, to be delivered, dead or alive in that city. The General desires to know who offers the reward, and he will go down in person and get the money. That amount, he says, would be very acceptable in these short times.

The School-Fellow for March is received.—This is an excellent periodical for children, published monthly by Dix & Edwards, at 321 Broadway N. Y. at $1 per year, or 10 cents per number.

The steamer I. F. Secor was sold in Portland on the 28th for $10,500. Mr Adams of Castine is said to be the purchaser.

A Century for Kansas. In Madison county it is proposed to raise a company of one hundred men, each armed with one of Sharpe's rifles, and provided with implements of agriculture and mechanical tools. They will thus be prepared to make settlements in the Territory, and to defend them; or to first fight for freedom for the whole soil, and then make themselves homes there. Picked men are to be chosen—such as are strong, temperate and of good character. Garrit Smith lives in Madison county. He offers to do all that is consistent to aid freedom in Kansas, and will furnish such requisites as the company may not be able to obtain otherwise. He has contributed $250, which he sent to the Boston Emigrant Aid Company. On being told that the money had been used to purchase arms, he replied that he was content. Such moral agencies are required in the planting of a free State where the drivers contend for the mastery with freedom.—*Rochester Democrat.*

An Infant. A female infant of a few hours old was found on the door-step of one of the merchants' citizens on French st. on Tuesday evening last. It was nicely done up in a basket, and with it was a note directed to the gentleman of the house, stating that the child was of good blood and corresponding station, but the family were absent from the city, but the residents in the adjoining tenement being called to the door by the ringing of the door bell, discovered and took care of the same, and it is now in the keeping of one of our best of families. The infant is handsome, and it is presumed its mother is.—*Journal.*

Aid from Dexter. At a recent meeting of the citizens of Dexter, to consult about the affairs in Kansas, over $500 were subscribed and of the free state party in that territory. Josiah Crosby, Esq., presided at the meeting, and R. L. Morrill was secretary.—*Jeffersonian.*

Norfolk, Feb 28.—There is a great demand for coasting vessels, to take the heavy supplies of corn, which is daily arriving, to Northern ports. The store houses are filled, and a large quantity in afloat.

The mother of Mr Jenkins, aged thirty, of Gardiner, N. Y., would not let him marry Miss Jordan, whom he had been courting, and in disappointed fair one has recovered $5000 for a breach of promise.

Drowned in California.—Luther Prather, of Oldtown, Me., was drowned at Feather River, Cal., on Jan. 17th. His age was about 35 years. He was in the employ of G. W. Garrott, driving logs.

"Down Among the Coal."

None but those who have visited the coal districts of our State can form any idea of the immensity of the mining operations. They are stupendous. They are almost beyond thought. Coal is the great staple, it is hardly paradoxical to style it so, for during the last year the profits of the mines were millions of dollars, in the number of capitalists and companies for operations in coal calculate the wealth of Golcondas of coal! The present greatest theatre of action I visited the other day, to witness the operations of Pottsville, the principal town of the county, and in some very extensive works. I was at one time the proprietor of the works; they are now in other hands and operations are proceeding. The city is said to be prosperous.

Having obtained the services of a guide, as to the mode of descent into the works, I prepared myself with a friend and couple of candles to make the descent.

I was deterred for a moment by the remembrance of fearful accidents, which occur almost daily in the mines—by the sudden damp, which may burst from the mountain mass, but finally curiosity got the better of my fears, and by the assurances of the guide, who impressed me by the confidence with which he spoke that no danger was to be apprehended, I jumped into the little car. There are two modes of descending into the earth, one by a perpendicular shaft, and the other by a sloping plane. I chose the latter, which was described to me as the safest and easiest. The guide stood behind the car, with a rope fastened to the back of it, and I sat facing him, my feet resting on the iron cable, (as this is the only means of conveyance) and my arms, as a matter of precaution, clasping the sides of the car. In this uncomfortable position we began to descend. The car moved slowly at first, but soon increased its velocity, and I felt perfectly satisfied that it was not sufficiently guarded. My forebodings of danger were in no wise lessened by seeing the guide jump into the car, with a number of little lamps, one for each of us. This hint was sufficient to tell me what was to come.

I shall never forget the awful feeling that my heart gave, when our guide shouted to the engineer, "Now then!" and we started slowly into the gaping chasm, which soon increased by degrees, and whirled along with the sensation experienced on a railroad, and all bright things that were, into the very bowels of the earth, is overwhelming and cannot be described. I felt as if a tremendous weight was pressing upon my chest, causing my respiration to be become laborious and heavy; this weight became lighter, but was never entirely removed during my stay in the mine.

Down! Down! Down! I thought the old car would never stop. "Shoulder the chain! Break!" I scarce dared whisper to myself. At last, after what must have been a little time, but which seemed to me a great while, the speed slackened, and the car stopped as we rode on a level; here the party stepped out on the ground. I could now see clearly the path we had traveled. The slope was about four hundred yards long, and sunk at an angle of about forty-five degrees—looking up from the bottom the entrance seemed a little patch of light, so far off and so small, that I felt as if I were in the middle of the earth.

Where the car had stopped, was an open space, some twenty feet square, in the center of it, opposite the opening, stood a blazing fire, in a large grate, holding five or six bushels of coal was informed that this fire was kept burning to produce a greater draft in the mine. Branching off from this central position were various avenues for passages penting in every direction. These follow the courses of various veins. Railroads are laid through the entire length of each, which all connect at this living point. The coal is forwarded thither from the different working grounds, and from thence to the surface—the whole of the arrangements are very beautiful. The loaded cars arrive with the utmost regularity from the various passages, are shipped to the surface with the rapidity almost of thought, and again and again return, over incessantly. We were taken into one of these passages called the "great chestnut" vein, and explored it to its utmost limits. This vein proceeded over a quarter of a mile—other veins were of a considerable length. The entire passage ways in the mines extended between four and five miles. Think of this, in the heart of the earth, where every piece must be hewed away by the blow of a pick.

There seems to be a regular system of streets, as it is to say, an irregular system, for they pass and recross each other at every imaginable curve and angle, and through them troops of mules with loaded and empty cars, are seen passing continually. When once a mule goes to the mines he stays there for life. He had at last a long look behind him when he is put into the (atal car, for it is the last time he will see the sun. Stables are prepared for them, which they don't occupy much, however, and only eat and work—sleep and work—work and die down there among the coal.

The guide who accompanied me seemed quite an intelligent person, and I learned a number of interesting facts from his conversation. He spoke of the operations of the arrangement of signals of the manner and regulations of the miners, and of many other things. After telling me of the dull routine of a miner's life, I threw up my hands—

"What, are these men whose souls cannot point them to something better than this?"

"Sir," said my friend, "you are mistaken—The miner is as happy in his occupation, and as proud of it, as you are of yours."

I know many an old miner, those who have been in imminent peril of their lives scores of times, who would now rather work down there in the mines—in the midst of the fire damp, than labor on the surface for treble a miner's wages. It is a thing we cannot explain, but it is so.

My guide went on in his garrulous, though interesting strain. He spoke of the terrible fire damp—the most deadly enemy of the operator. Scarcely a day passes but some are burned with it, often fatally. It is harmless of itself, but on contract with fire explodes with a terrific force—burning every one within its reach. It occurs most generally in the mines where there is want of ventilation, but no mine is entirely free from it—any blow upon a rock may let a flood of the poisonous vapor out upon the operator. The fact of the damp being fired in any part of the mine becomes immediately known to those in the other galleries by a peculiar sensation in the head. It feels as if powerfully compressed on either side about the temples, together with a heaviness and tingling in the eyes. When the miner becomes aware of this (and he knows it but too well when it portends) the best thing he can do is to drop to a dead man and grovel in the mud and water—drop instantly and thrust his head, feet and hands into the mire as far as strength will permit. Should he accomplish this in time the gas may pass over him without harm; but should he neglect the warning or even be too tardy to take advantage of it, he must suffer most horribly. Instances have been known where men, though half buried in the mud, have had the flesh burned from their backs by the destroyer as it passes over them. After a horrored recital of the terrors, the guide turned to coolly and asked me if I should like to see some of the fire damps. I somewhat shrieked.

"Yes," said he, "with the Davy's safety lamp. I can show it to you with perfect impunity."

I thanked him hurriedly but declined the offer.

Numerous other perils assail the operator every day. The firedamp is not the only dangerous agent from which he suffers. There is another vapor sometimes exalted, called the black damp, which suffocates the victim. There is no escape from this—death is inevitable. Many a man, too, has met his end by the falling of huge masses of coal, and the crushing in of coal bankments. The guide related several instances of this kind within his memory, and said that men had been known to disappear suddenly, and that nothing had been heard of them for a long time afterwards, when their remains were found by their fellow-workmen in digging after coal.

We had now gone over the entire grounds, and were returned to a place of embarkation. The best that my heart gave of going down, was nothing to the throb I felt in every vein, on beholding again the sun. I felt as if a heavy weight was taken from my breast suddenly, and had left me as light as a fairy. Still I never regret my visit to the coal mines.

The New York Press and Mr. Fillmore's Nomination.—The Times says of Mr Fillmore's nomination "We do not suppose the Southern States expect to elect him alone; and yet it is not easy to see what Northern State will come to their aid." The Tribune says "The Know Nothing candidate, had he been the right man, stood a chance of carrying this State in the Presidential election. But Mr. Fillmore stands no chance at all. Again it says "Not only is Mr. Fillmore notoriously a Southern and sectional candidate, nominated by a Southern and sectional platform, he is notoriously unwanted, not with any expectation to elect him, but as a mere bob to the tail of another sectional kite and as a means of helping in that capacity to elevate Wise, Pierce and Douglas, or whoever the nominee of the Cincinnati convention may be, to the Presidential chair." The Journal of Commerce is enraptured but dubious. "He will command a large vote, but whether sufficient to carry him in remains to be seen." The Herald thinks Mr F "has no chance, from present appearances, of a solitary Northern State, and but a sorry show for more than three States in the South." The Courier and Inquirer says "The party that dares not go into battle under a leader and with a standard of its own, is no longer a party—it is a mere collection of mercenaries. I no longer fights for a cause; spoils are its only object."

The Evening Post says—"The nomination made yesterday at Philadelphia does not in the least change the nature of the great strife of opinion which is going on in this country. There are but two great parties in the United States—those who seek the extension of slavery, and those who resist it. The friends of extension are now divided into two factions—those who support the administration, and those who support Mr. Fillmore. It remains for the enemies of that policy to prepare themselves for a contest with both."

The nomination of Mr. Fillmore must be looked upon as the completest specimen of folly that ever illustrated party history. Here is a man more odious to the people of the free States than any other, because of subserviency to slavery, and he is put up for the Presidency by a party which assumes to be peculiarly national in its character. His name stands on the Fugitive Slave Law, the most villainous statute ever enacted since the writ *de heretico cumburendo* was provided for the destruction of Lollards. It was never meant that any such law should be presented to President Taylor but the moment that his death led to Fillmore's elevation, it was determined that the law should be pressed, in order that he might be compelled to give bonds to the South. The readiness with which he submitted to the requisitions of the slaveholders was one of the causes of their subsequent boldness, and their increase in insolence towards the North. The repeal of the Missouri Compromise was one of the consequences. His conduct left the impression that Northern men would do anything that might be demanded of them by the South, if the language of the demand should be sufficiently imperative.—*Boston Chronicle*

Cotton for Northern Manufactures.—Among the late clearances at our Custom House, we observe that of the new American ship Isaac H. Boardman, with 5,000 bales of cotton for Boston. This is the largest cargo of cotton ever taken from this place to that port. We also notice that the Merrimac cleared yesterday with 3,672 bales for Boston, and one or two other ships with smaller quantities. These shipments indicate that an active business is being done by our Northern manufacturers.—It is seldom they receive such large shipments so early in the season.—*New Orleans Picayune*

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained in this life by this process, requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now, for the first time in Bangor, offered to the public. Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main street, a short distance below the Bangor House.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, March 3.

SENATE. Mr. Cass made a personal explanation in relation to an article in to-day's Intelligencer, signed J. W. W., which he attributed to James Watson Webb. It relates to a conversation between Mr. Webb and Lord Clarendon, in which the latter stated he had no unfriendly feeling towards the United States. This statement was explanatory of a remark made by Lord Clarendon in the House of Lords.

That the understanding between the English and French Governments was permanent in relation to all parts of the world, which was understood as a menace to this country.

Regarding Cuba, Mr. Cass asked Mr. Clarendon's language had been misunderstood, why did he not explain it in his place in the House of Lords, instead of leaving it to be explained by a private letter which few, perhaps, would see or hear of.

The bill authorizing the construction of ten sloops-of-war was taken up. Mr Seward referred to several periods of our history, from the affair of the Caroline to the late dispute in regard to the fisheries, to show that the appearance of a single British vessel had frightened the country with a fear of impending war.

He said he was tired of these things and wished the people, especially the merchants of our Commercial cities to discuss questions of national interest, without being alarmed about fear of the inability of our Government to maintain them in their property rights and interests. He would vote for this increase of the Navy irrespective of any question in regard to our foreign relations, simply because he tho't it wrong to leave the seaboard exposed, and because there never had been a time so propitious as the present, when, without any alteration of our revenue system, we are receiving an immense surplus revenue could do.

Mr. Hale thought it absurd to undertake to put our Navy on a footing to compete with those of other countries, it reminded him of a legacy of ten pounds bequeathed by an Englishman to pay the National debt. If there was any apprehension of war—it originated in Congressional speeches. It was time to economize expenditures.

Mr. Bell of Tenn., said the bill was unanimously recommended by the Naval Committee not founded on any existing alarm on the subject of war. The object was to supply a class of vessels really necessary for the protection of Commerce.

Mr. Hunter believed that the matters of difference between Great Britain, and the United States were such as ought to be settled, if common discretion is exercised. The passage of the Bill should not create a war alarm. We increase the chances of peace by preparing for war. Thus diminishing the opportunity for foreign powers to speculate on our weakness, real or supposed.

The bill was passed. The estimated cost of each vessel is $597,000, including equipment and steam machinery. Two millions are now appropriated.

The Trumbull election case was considered. Mr Crittenden favored Mr Trumbull's right to the seat, stating that the constitution of the United States defines the qualifications of Senators, and no State has authority to require any other qualifications.

Mr Pugh contended that the plain and obvious meaning of the State constitution should govern the question. The State had a right to require any qualification it pleased, so long as there was no conflict with the Constitution of the United States.

HOUSE. The Deficiency Appropriation Bill was discussed, but without concluding the discussion the House adjourned.

From Havana.

NEW YORK, March 3.

The steamship Black Warrior arrived this evening, with Havana dates to 27th ult. There is no political news of interest, and the sugar market was unchanged.

Four British men-of-war were in port. No further arrivals looked for.

On the 3d inst. at 37 20, lon 74 30, the Black Warrior passed the new steam frigate Merrimac, steering SW.

Lieut Werden, USN. who had command of the bark Amelia, seized at Port au Prince, was a passenger in the Black Warrior.

The snow-storm of Sunday, with the strong wind which prevailed yesterday, appear to have blocked up the roads again between Portland and Boston. Holloway's Pills have again triumphed over every other Medicine. Wherever Tic Gens, Early Waiters, Spasms, Nervousness, Sleeplessness, Nervous Headaches, wandering of the limbs, numbness of the whole body, and other symptoms with very much alarmed her friends and relatives. The actual cause and origin of the complaint puzzled every one, it here such a variety of aspects, and consequently there were a variety of opinions on the subject. These months against the medicine was tried, which Holloway's Pills, which triumphantly performed their part, for in six weeks the patient was in possession of the most robust health—after every advice and medicine had failed. They are an excellent remedy for young ladies entering womanhood.

☞ We advise purchasers of Fancy Goods and Toys, or superior Fireworks, to call on Hodden, Cutter & Co., extensive importers, 15 and 17 Kilby street, Boston.

TESTIMONIALS. Vegetable Pain Killer.—Voluntaries, scientific, and with much pleasure, we recommend to our readers the above named medicine. We speak from observation and experience when we say it cures pain as if by magic, from all parts of the body, and is one of the best medicines in use for checking rheumatism, and preventing the distressing symptoms of fever. Nearly every lady in the land suffers from that complaint. The above Pain has permanently cured thousands, and will cure you if you use them. They cannot harm you—on the contrary, they improve all constitutions, and operate in a manner to suit the peculiar habits of each system. Ladies whose health will not permit an increase of family, will find Holloway's Pills a safe and sure preventive. For particulars, see directions on the box—and will be sent to ladies, confidentially, by addressing us.

SAM'L E. PERKINS, *General Agent*;

to whom all orders must be addressed. Ladies by applying at this office or to Bangor Post Office, may depend upon having the Pills sent (confidentially) by return of mail.

Bronchitis, Coughs, Hoarseness.

BROWN'S BRONCHIAL TROCHES, or Cough Lozenges, are made from a highly esteemed receipt for the relief of Bronchial affections, Coughs, Hoarseness, Asthma, Irritation of the Throat, other chronic or accidental colds, and for unusual exertion of the voice required in singing or speaking. Clergymen, Vocalists, Lawyers, and PUBLIC SPEAKERS, will find them an admirable assistant to render in speaking the bronchial tubes, clear the voice, and a valuable and efficient remedy. Containing no opium, they can be used as freely as necessary. The recipe for the Troches was originally in the possession of a clergyman who had used them with success for bronchial affection, attended with a severe cough—they were recommended to others, who were benefitted by the use of them, and now can be obtained of Druggists generally throughout the United States.

CAUTION. Messrs. JOHN I. BROWN & SON: Gentlemen—I know of no manner in which the various articles of the Materia Medica were combined by you to form the "Bronchial Troches," and no person or consumer since to adopt the same. The result has been such as to induce me to continue the practice, believing them of great benefit in the affections of the Bronchial organs, Asthma, Coughs, Colds, &c.

THE undersigned proposes, provided sufficient encouragement be given, to construct and engrave and accurate Map of Penobscot County, from actual surveys.

Said to be carefully measured by course and distance, and the locations given of all the streams, roads, rail-roads, hills, villages, churches, schools, stores, work-shops, dwellings, and other objects of interest and importance—Names of property owners, of distances from village to village, and statistics of the agricultural, geological, mechanical and mercantile resources, and condition of the county to be given. Extra plans of the principal villages on an enlarged scale to be added in the margin. The publication of some of the public and other important buildings, &c. The map to be engraved in very superior style, beautifully colored, varnished, mounted on cloth with rollers, and furnished to subscribers only at $5 per copy. No labor or expense will be spared to make this work valuable and beautiful, and the most liberal patronage of the citizens is expected, to enable the publisher to carry out the work.

WETMORE'S

General Intelligence and Advertising Office

Strickland's Block, Kenduskeag Bridge.

RARE CHANCE FOR EMPLOYMENT. At this time of year when business is dull and young men are coming in from the country to obtain situations for the spring and summer, I invite such to call at once at the Intelligence and Advertising Office, where they may find desirable situations, if they possess good business qualifications and some capital, say from $10 to $30.

SITUATION WANTED, by a capable young man, in a Corn and Flour Store. Can keep books. Inquire of S. F. Wetmore.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimension and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rolling Place, or at the store of M. S. Jackson, on Exchange st., and at either place any article may be obtained in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and is well organized in the business that no one should now think of building in the old and slow and imperfect methods.

The Great European Cough Remedy!

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

Is a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing

PREPARED ONLY BY

REV WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary powers in relieving and curing diseases of the Chest and Lungs as gratefully acknowledged and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in final bottles, 25 cents each, large bottles each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

Bowdoinham, Me. 13th 1853

To Rev Walter Clark Dear Sir—The little of Cough Mixture which I bought of T Jobain had the desired effect in my wife in less than half a bottle, a cough for two years—that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls

Rev. Clarke—Every bottle of the Universal Cough Mixture which you left with me I sold—and I have several applications for more As far as heard from, all have been perfectly satisfied with the medicine One man, who had a cough for a long time, and in the tightness of the chest and his throat thought he must have had acute or a bilious attack As these had no bottle and before he had taken one third, he was perfectly cured, and has had no cough since He says it is the best medicine in the world and [illegible] highly

JESSE HAYES.

From Mr Fletcher Clark, agent for North Dixmont Maine

Rev. Clarke—A number of persons have been extraordinary cures have been effected [illegible] Mixture in my family, and I [illegible] Mixture without hesitation to be the best medicine [illegible] ever used in the [illegible]

From Mrs Tabbard Thornhike Me. [illegible] 1854

Rev Mr Clarke—I have used one bottle of your Universal Cough Mixture for distress or cough and soreness, by the blessing I found relief from the first dose, and had been under the care of several Physicians and [illegible] getting relief, I finally applied to your Cough Mixture and [illegible] bottle, which I believe to be the means of my recovery, and I have not had occasion to use it for a few days [illegible] cured

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, to that

Hayes' Allied Ointment,
and Humor Syrup.

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of trials these seven years, and its efficacy is the public we are not ashamed of its assertions. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of Humor, and really one of the greatest blessings to mankind ever before the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself

Lewiston, June 12, 1854

We, the undersigned, citizens of this place, having used the Vegetable Allied Ointment prepared by Dr. E. D. Hayes, of this city, and being personally acquainted with the Doctor, take pleasure in adding our testimony to all the Doctor claims for his medicine. It is the most powerful one in the market, this preparation performs its office speedily and with certainty The Ointment we have used with the most happy result after vainly seeking relief by the free use of Sarsaparillas &c., &c., &c.

Our experience fully justifies us in confidently recommending its use in this article and the only one known to us as performing all it claims.

PHYSIOLOGY OF MARRIAGE, by an Old Physician, at A. BARTLETT'S, 3 Hersey Block.

LET US REASON TOGETHER

HOLLOWAY'S PILLS

WHY ARE WE SICK?

IT has been the fate of the [illegible] race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted, to the relief of the WEAK the NERVOUS, the DEBILITATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway has personally superintended the manufacture of his medicines in the United States, and does not hesitate to place them before the free and enlightened people as the *best remedy* the world ever saw for the removal of disease

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. A learned College has said that this medicine is the best remedy ever known for persons of delicate health or where the system has been impaired, as its invigorating properties never fail to afford relief

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy
Bowel Complaints	Debility
Colds	Fever and Ague
Colics	Female Complaints
Consumption	Fevers
Coughs	Headache
Constipation	Indigestion
Dysentery	Influenza
Diarrhœa	Inflammation
	Liver Complaint
	Lumbago
	Piles
	Rheumatism
	Retention of Urine
	Scrofula
	Stone and Gravel
	Secondary Symptoms
	Tumors
	Ulcers
	Venereal Affections
	Worms of all kinds

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple In fact he has tried it in over eleven hundred cases, and never failed except in two He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst kind of blotches

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to six bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and deafness in the head.

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring Worm

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst cases of Scrofula.

A Benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so unprobable to those who have in vain tried all the wonderful medicines of the day is, that a common weed, growing upon the pastures, and along old stone walls should cure every humor in the system, yet it is now a fixed fact If you have a humor it has to start There are no ifs nor ands about it, setting some cases but not yours He has peddled over a thousand bottles of it in the vicinity of Boston and knows the effects of it in nearly every case. I have freely done some of the greatest cures ever done in Massachusetts. He gave it to children appear old, to old people of sixty, and has seen many looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure it It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very unusual feelings but you must not be alarmed—they always disappear in from four days to a week—There is never a bad result from it—in fact the contrary, when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary What the best you can get and enough of it

ROXBURY, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the only AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my laboratory

Such
as Constipation, Inward Piles, Fullness, of Blood to the Head, Acidity of the Stomach Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots of Webs before the Sight Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c

Sudden Flushes of Heat Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparation extant The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of this country is immense The following, from your own State is respectfully submitted, relating as they do, not to mere [illegible] rubbish of Practical Recipe Book, for Families and Families, to be had grams of all the Agents for the German Bitters,

Principal office and manufactory, 120 Arch st., Philadelphia, Pa.

TESTIMONY FROM MAINE

Most Daniel Abbott Brooklin, Maine July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston I was in a very low state I took medicine and procured a physician, but for ten days could retain no food to relish, no sleep or appetite At last finding on a newspaper having your advertisement of Hoofland's German Bitters in it, I sent for some immediately This was about 10 o'clock at night I took the first dose, and another at 6 o'clock The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man. I have not been without your medicine since, having been sailing between Baltimore Charleston, and the West India Islands ever since I have not given up going to sea and reside in this place in Brooklin, you should have an agency, as you could sell large quantities of it"

Jos B Hall & Co Presque Isle, Aroostook Co, Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of Dr Hoofland's German Bitters We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story)

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast From reading a number of cures performed by "Hoofland's German Bitters" I was induced to try them in her case, and sent to your store and purchased one bottle She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters WILLIAM CLARK

Salmon Brook, Aroostook Co', Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases,

A MARVELLOUS REMEDY

For a Marvellous Age!!

HOLLOWAY'S OINTMENT!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies—Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys Disorders of the Liver, affections of the Heart, inflammation of the Lungs Asthmas, Coughs and Colds, are by its means effectually cured Every household knows that salt passes through bone or meat of any thickness—This healing Ointment far more readily penetrates through any bone or flesh, or part of the living body, curing the most dangerous internal complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment giving advice as to its application, and has thus been the means of restoring countless numbers to health

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals in the East, large shipments of this Ointment to be used under the direction of the Medical Staff, in the worst cases of wounds It will cure any ulcer, however swelling stiffness or contraction of the joints even of 20 years standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot

Both the Ointment and Pills should be used in the following cases

Bad sore throats,	Piles
Burns,	Sprains
Chapped Hands	Scalds
Chilblains	Salt Rheum
Chiego Foot	Skin Diseases
Corns	Sore Legs
Coco Bay	Sore Breasts
Lumbago	Sore Heads
